Please note: This schedule is a general guide based on what can be achieved when all aspects of the freight chain operate smoothly. Unfortunately, there are no guarantees with international shipping. We remain at the mercy of shipping lines that often change schedules without notice to suit their own operations. That said, in a 'normal' year, these delivery estimates are usually quite reliable. For peace of mind, **the earlier you place your order, the earlier we can schedule your shipment**, giving us the best chance of meeting your expected delivery timeframe.
